Top Skills

Plant Operations
Plant Design
Plant Layout

Certifications

python for beginners
GCE Advanced Level (Engineering Technology Stream)
Information & Communication Technology Technician full time certificate course

Heshala Maduwantha

Mechatronics Engineer | University of Sri Jayewardenepura
Colombo, Western Province, Sri Lanka

Summary

Curious about how technology shapes our world? Let's explore the future together! I'm an aspiring Mechatronics Engineer from the University of Sri Jayewardenepura and an ICT enthusiast with a solid foundation in Java, C, and Python. My journey includes hands-on experience in designing and simulating complex electronic systems, honed through rigorous academic training and specialized courses in microcontrollers and robotics at the Ceylon German Technical Training Institute.

Through my dual academic paths, I've developed a knack for not just understanding, but also applying integrated technologies in practical scenarios. Whether it's crafting intricate designs using AutoCAD and Solid-works or simulating circuits in Proteus, I bring a detail-oriented approach to tech solutions. My academic projects often revolve around leveraging embedded systems knowledge to enhance device functionalities, ensuring optimal performance.

If you're intrigued by how technology and creativity intersect, or if you're looking for someone who's not only about ideas but also about making them happen, let's connect! I'm at the beginning of my career and eager to contribute, learn, and grow. I invite you to engage with me as I step forward into the world of technology and innovation.

Experience

Studio Pixcura
Co-Founder
April 2024 - Present (2 years 2 months)
Trincomalee, Eastern Province, Sri Lanka

Co - Founder of Studio Pixcura, a photography brand specializing in graduation, portrait, and event photography. Responsible for client handling, creative direction, photo editing, and content delivery while maintaining high-quality visual storytelling

CBL Group

Engineer

October 2024 - April 2025 (7 months)

No:555,High-Level Road,Makubura,Pannipitiya

Engineering Intern

As an Engineering Intern in the Engineering Department, I gained hands-on experience in industrial automation, mechanical systems, and design engineering under the guidance of senior engineers. My key contributions and learning outcomes included:

PLC & HMI Programming: Programmed and configured Siemens, Mitsubishi, and Coolmay PLCs; designed HMIs using Siemens, Wecon, and Kinco platforms.

Automation & Controls: Worked on servo and stepper motor control systems, encoder integration, VFD configuration, and sensor-actuator interfacing.

Design & Simulation: Used SolidWorks for mechanical design and simulation; created detailed technical drawings in AutoCAD and AutoCAD Plant 3D; developed electrical and P&ID diagrams using AutoCAD Electrical and Microsoft Visio.

Pneumatic Systems: Developed knowledge of pneumatic circuit design using Festo FluidSIM and various pneumatic components.

Industrial Machinery & Maintenance: Gained hands-on exposure to industrial equipment including boilers, pumps, air compressors, and traditional machining tools like lathes and milling machines.

Panel Board Wiring: Practiced electrical panel wiring and learned about tools and instruments used in electrical installations.

Key Projects:

Developed PLC and HMI systems to Automate Oil Spray System and Conveyor Belt Aligning Systems.

Prototyped an air trapping mechanism for Plant 3 including PLC programming and wiring.

Implemented pump control systems for the Effluent Treatment Plant and Prepare Related Technical Documents

Designed and Developed mechanical platforms for cleaning and lifting applications in multiple plant areas.

Design Biscuits Carton Pallet Lifting Platform For Intermediate Store (IMS).

Freelance

Private Tutor - ICT

2021 - 2023 (2 years)

Conducted Advanced Level (A/L) ICT tutoring sessions, helping students understand key concepts and improve exam performance. Focused on simplifying complex topics and supporting students with structured guidance and practice

Education

University of Sri Jayewardenepura

Bachelor of Engineering Technology Honours Degree (Mechatronics Technology) · (August 2022)

University of Colombo School of Computing

Bachelor of Information Technology (External), Information & Communication Technology · (November 2023)

Ceylon German Technical Training Institute

Microcontrollers And Robotics, Mechatronics, Robotics, and Automation Engineering · (November 2023 - March 2024)
